MEMORANDUM FOR: COMOR Photo Working Group

SUBJECT: Evaluation of Selected China Targets for Coverage by
112A Camera

1. The attached study was prepared by NFIC at the request of COMOR in connection with COMOR's evaluation of the need for the use of the 112A camera in China.

2. On 12 December the study was remanded to the Photo Working Group with the instruction that it be examined with the view of answering the following questions:

a. Are there additional increments to intelligence not listed by NFIC?

b. What is the intelligence value of the increments in information provided by the 112A over information provided by the "B" mount U-2?

c. In view of the risk expressed by the NRO (see USIB-D-41.15/23 - COMOR D-25/59) are the intelligence increments important enough to use the 112A over China?

3. Working Group members are requested to be prepared to conclude on this subject at the 23 December meeting so that recommendations may be presented to the COMOR.
